

Multiplying and Factoring Polynomials
Site Licensed DVD with PDF handout

In this DVD Bill and Brad will show you how to easily transition your students from the arithmetic skills they already know to the algebraic rigor of multiplying and factoring polynomials. These classroom-proven techniques use the strategy of conceptual layering to foster understanding and develop mathematical fluency. The comprehensive PDF handout included will minimize preparation time and maximize the results.

All DVD's are site licensed for affordability. Purchase only one copy for your entire school staff.
Approximate running time: 72 minutes.
